PROFILE

Software developer with close to five years of experience building and maintaining production web interfaces for digital education platforms, now focused on **database development, SQL, and business & CRM reporting**. I care about clean, accessible front-ends and about turning data into reports a business can act on — I ship side projects end to end and use **AI tools across my whole workflow**.

EXPERIENCE

Software Developer May 2026 – Jul 2026

MRT Solutions SA · Full-time · Hybrid · Athens

- Developed application features in JavaScript alongside database work.
- Built and optimized SQL queries and stored procedures supporting core business operations.
- Delivered business & CRM reporting that gives teams clear visibility into key metrics.

Frontend Developer Sep 2021 – May 2026

Express Publishing · Full-time · Remote

- Built and maintained the UI for digital education platforms used by schools and learners.
- Implemented responsive interfaces with HTML5/CSS3, ensuring cross-browser compatibility and accessibility.
- Collaborated closely with designers in an Agile team; improved front-end consistency across products.

SELECTED PROJECTS

SQL Data Warehouse [code](#)

End-to-end SQL Server warehouse: ERP & CRM data unified into a star schema, with cleaning, transformation and analytics queries.

SQL Data Analytics [code](#)

Business-data analytics: customer segmentation and ranking, time-based trends and cumulative metrics for reporting.

MovieHub [live](#) [code](#)

Framework-free movie search on the TMDb API — live search, detail views and favorites via localStorage.

Budget App [live](#)

Budget tracker with live totals, category charts and a monthly filter; dark, responsive UI with local persistence.

Agile

AI IN MY WORKFLOW

BUILD WITH AI, NOT AROUND IT

Daily use of AI tools for prototyping, code review, SQL query design and documentation — precise prompting, critical review, and validation against real data. Comfortable in LLM-powered, AI-first teams.

EDUCATION

Computer Programming

National & Kapodistrian University of Athens
2009 – 2015
